

Sustainable Materials Conference

Green Chemistry-Based Plastics Manufacturing

Sustainability for the Long Run... Join Us the Day After the Boston Marathon!

Sustainable Materials: Green Chemistry and the Engineering of Bio-Based Polymers

The Plastics Institute of America and the University of Massachusetts Lowell invite you to attend a cutting-edge conference on the latest developments and trends in bio-polymers. Come discover how the science of plastics is moving towards the new eco-friendly frontier of biodegradable materials and their manufacturing. This one-and-a-half day conference will be held on the University of Massachusetts Lowell campus with industry leaders, engineers, educators and scientists. Topics include:

- Bio-Polymer Synthesis and Design
- Processing and Manufacturing
- Mold Design for Bio-Polymers
- Recycling Strategies
- Environmental Footprint

A one-and-a-half day conference with 12 papers and three panel discussions

April 17-18, 2007
Lowell, Massachusetts
Conference Fee: \$300

To register for the conference, call
978.934.2405
